

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

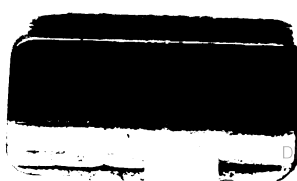

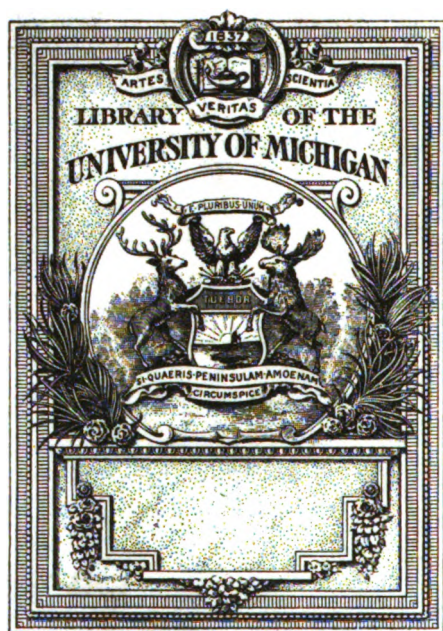

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

erecting the above School or Colledge, the one moiety

seven shillings and two pence.*

From "College Book, No. III." (page 1).

1. fter God had carried us safe to *New-England*, and wee
had builded our houses, provided necessities for our
livi-li-hood, rear'd convenient places for Gods worship,
and settled the Civill Government: One of the next
things we longed for, and looked after was to advance *Learning*. and
perpetuate it to Posterity; dreading to leave an illiterate Ministry
to the Churches; when our pretient Ministers shall lie in the Dust.
And as wee were thinking and consulting how to effect this great
Work; it pleased God to stir up the heart of one Mr. *Harvard* (a god-
ly Gentleman and a lover of Learning, there living amongst us) to
give the one halfe of his Estate (it being in all about 1700. l.) to-
wards the erecting of a Colledge, and all his Library: after him ano-
ther gave 300. l. others after them cast in more, and the publique
hand of the State added the rest: the Colledge was, by common
consent, appointed to be at *Cambridge*, (a place very pleasant and ac-
commodate, and is called (according to the name of the first found-
er) *Harvard Colledge*.

¹ "Over the Colledge are twelve Overseers chosen by the General Court, six of them are of the Magistrates, the other six of the Ministers, who are to promote the best good of it, and (having a power of influence into all persons in it) are to see that every one be diligent and proficient in his proper place." — *New England's First Fruits* (London, 1643) page 13.

² The Charter of 1692, which, though duly passed by the legislature, was neither approved by the King nor accepted by the College, made no provision whatever for a board of Overseers or Visitors, all power being placed in the Corporation.

The Charter of 1697 was likewise returned without approval by the King, but the College was for a period conducted under its provisions. The Governor and Council were to "have, use, and exercise a power of visitation as there shall be occasion for it," but their relation to the Corporation was not defined with exactness.

The bill of 1699, which was not signed by Governor Bellamont, assigned the power of visitation to the "King and his Governor."

The Charter of 1700, which, like that of 1697, was for a time acknowledged by the College, though not approved by the King, reserved a power of visitation to the Governor and Council.

³ Fifteen laymen were to be elected, upon acceptance of the act, by the old Board of Overseers, and were so elected, May 10, 1810; the fifteen ministers already members of the Board continued in office. Members were to hold office so long as they remained inhabitants of the State, unless removed by the Board for cause; but a minister who ceased to hold the ministerial relation he held when the act was accepted, or at the time of his election, thereby vacated his place in the Board. The Board was empowered to elect new members to fill vacancies occurring among either class.

¹ The Act of 1810 (March 6) was repealed by an act of February 29, 1812, and the Board of Overseers re-established as it had existed prior to 1810. The validity of the Act of 1812, which did not provide for submission of the Act to the Corporation and Overseers for their approval, was denied by these bodies; but it was regarded as inexpedient to press the point, and the restored Board conducted business from June 3, 1812, until the re-establishment of the Board of 1810 by the Act of February 28, 1814.

† Not Instructors regularly appointed, but persons permitted by the Corporation to teach such students as so desired. In 1766 the students were forbidden to attend the instruction of unauthorized teachers, and the position of the licensed teachers became more defined; their charges were included in the quarter-bills, and they shared with the tutors the privileges of the Library, of Commons, etc.

N O T E.

In the Class lists record is made of certain honors and positions held, as well in the past as in the present, by graduates. The following paragraphs show concisely what honors and positions are thus recorded, and the manner in which they are indicated. The order adopted is that in which the facts are arranged in the Class lists.

1. Degrees conferred by other universities, colleges, and professional schools; honorary degrees, when a degree of the same grade is generally granted in regular course, being distinguished.

The designation of a degree is followed by the name of the institution conferring it, and by the date of conferment; but degrees conferred by Harvard University are followed by the date only, and the degree of Master of Arts, when taken in course, that is, three years after the date of the Bachelor's degree, appears without date.

Graduates who received their degrees out of course are placed with their respective classes, and the dates when the degrees were conferred immediately follow the names.

The completion of the regular course at a professional school which confers no degree is indicated by the name of the institution and the date when the course was completed.

When the same degree has been received from two or more institutions, the order of arrangement is by date; but with this exception, that degrees conferred by Harvard University are placed first, without regard to chronology.

2. Offices in Harvard University: President; Fellow; Treasurer; Overseer (by election); Professor; Adjunct, Associate, and Assistant Professor; Director; Curator; Dean; Tutor; Instructor, and Lecturer, if the appointment is for more than a year; Librarian; Assistant Librarian.
3. Professorial appointments in other universities, colleges, and professional schools, provided that the course of study in such institutions be at least equivalent to the average attainments of a Harvard undergraduate or professional student at the end of his second year.
4. Professorial appointments under the United States government, or other national governments.
5. The position of headmaster or principal in leading secondary schools, both public and endowed, and the position of master in the same having charge of special departments of study.

NOTE.

6. The position of State Superintendent of Public Education, or whatever officer corresponds thereto, and that of Superintendent of Schools in cities of not less than 50,000 inhabitants.
7. Membership in foreign national societies in good standing, provided such membership is regarded by those societies as an honorable distinction.
8. Membership in the National Academy of Sciences; American Academy of Arts and Sciences; American Philosophical Society; Massachusetts Historical Society.
9. Membership other than resident in American societies of the same grade as the foreign societies recognized; the grade of such societies to be determined, as cases arise, by a standing committee of the University Council.
10. Offices under the United States government: President; Vice-President; President of the Senate (when not the Vice-President); Member of the Cabinet; Senator; Member of the House of Representatives; Foreign Minister; Justice and Chief Justice of the Supreme Court; Judge and Chief Justice of the Court of Claims; Judge of a Circuit or District Court; Major-General and higher ranks (not by brevet); Rear Admiral and higher ranks.
11. Offices under the State Governments: Governor; Lieutenant-Governor; Justice and Chief Justice of the Supreme Court; also Governors of Territories, Justice and Chief Justice of the Supreme Court in Territories and in the District of Columbia.
12. Offices of similar grade, and honorary appointments, under foreign governments.

ABBREVIATIONS.

The abbreviations used are, in general, self-explanatory. For degrees the Latin abbreviations are commonly used (S.T.B. = B.D., S.T.D. = D.D.), but the degrees of Doctor of Civil Law is indicated by D.C.L., and for several technical degrees the English abbreviations are given.

INDEX OF GRADUATES.

Bachelors of Arts are indicated by the date of graduation only, which refers to the Class Lists (p. 69), where other degrees received are also recorded. Those who have received other degrees, but not that of Bachelor of Arts, from Harvard University, are distinguished by italic letters, according to the following scheme : where more than one degree has been received, reference is made to the one first taken.

NOTE.

INFORMATION affecting the following names was received after the pages of the Index had been cast ; in the Class lists the changes have been made. There are a few cases, not enumerated here, where an additional initial should be inserted, the full and correct form appearing in the Class lists.
